

## Product securing during transportation for the Bottle and Can Industry

# System solutions

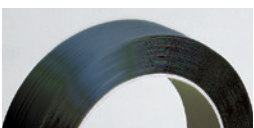

## Strapping of bottle layers

**Strapex Endsealer – the specific and proven strapping system**

Horizontal strapping of single layers of glass bottles in high production lines (Endsealer Technology)

- Inline application (transport of bottles on conveyor belt)
- Integrated into palletizing installation

Specially developed straps for the glass industry

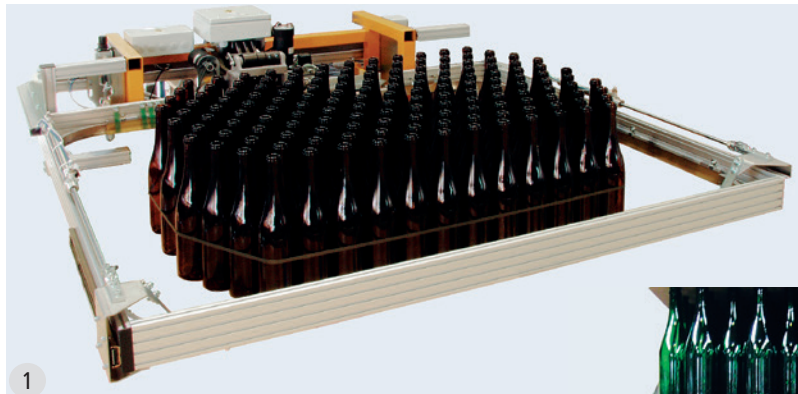

- Fewer coil changes due to larger coils resulting in less machine interruption
- Simple integration into existing conveyor systems
- Exact strap positioning
- High availability
- Reduction of packaging costs due to making use of light straps

1  
Horizontal strapping of  
single layers of glass bottles  
(arch technology)

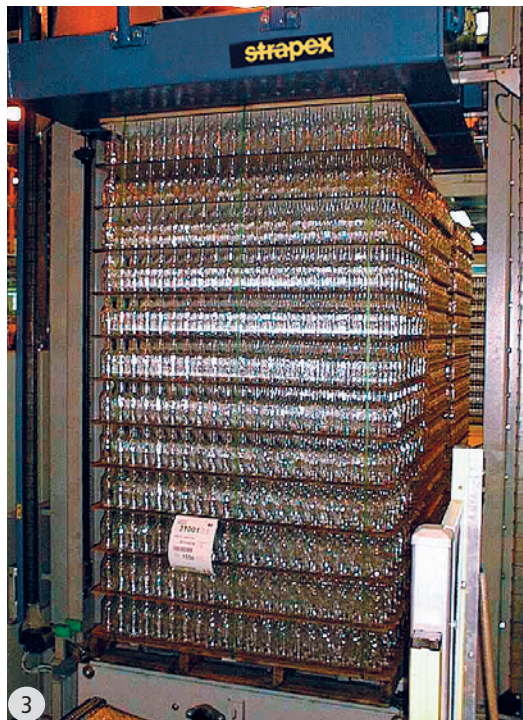

- Outside palletizing  
installation

2  
Horizontal strapping of  
several layers of glass  
bottles on pallets

3  
Vertical strapping of glass  
bottles on pallets (with  
compression)

4  
Vertical strapping of PET  
bottles on pallets  
(with finger press)

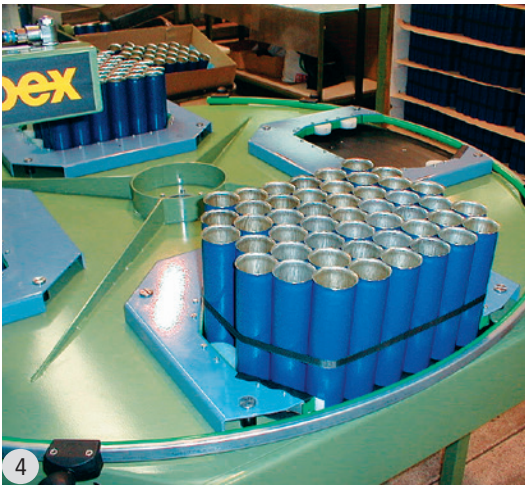

# Strapping and wrapping of cans

## Strapping

- 1 Vertical strapping of cans on pallets (with finger press)
- 2 Vertical strapping of cans on pallets
- 3 Double head strapping machine for high production capacity
- 4 Horizontal strapping of aerosol cans with Endsealer Technology

## Wrapping with stretch film

- 5 Wrapping of cans on pallets

# The Strapex Advantage

## Machine, Strap and After-Sales Service as a total package

### Customer benefits

- Comprehensive advisory service
- Professional project documentation
- Development of your machine on the most modern 3D-CAD work stations
- Assembling and acceptance test in-house
- Integration and commissioning in your production line
- User-friendly operating instructions
- Training of your service and maintenance personnel

### The right machine

Due to the flexibility of their machine construction programme, Strapex can offer tailor-made solutions for customers individual applications.

### The right strap from our own manufacturing plants

A comprehensive range of plastic straps (PP and PET) each with their own characteristics to ensure that strap and equipment are always the best possible combination!

### Worldwide Sales and Service

You will receive expert advice on choosing the right solution and service package together with the guaranteed availability of spare parts.

### Additional products for the transport securing sector

- Hand tools for strapping
- Machines for the Food & Beverage industry

# Make your products feel safe
