

Plastic Straps

Polypropylene (PP) + Polyester (PET)

Printed and special straps

The Strapex Advantage

Strap, Tools/Machines and After-Sales Service as a total package

The right strap

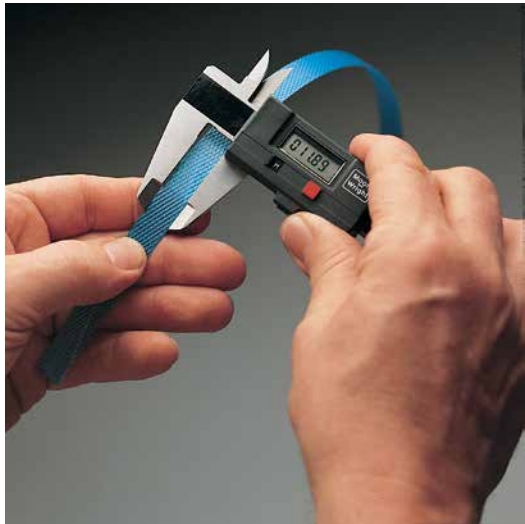

A comprehensive range of Polypropylene (PP) and Polyester (PET) straps each with their own characteristics to ensure that strap and tools/machines are always the best possible combination!

The right tool or machine

The applications for strapping are varied – just like the Strapex range. You can choose one of several systems from a simple hand tensioner/sealer to a fully automatic installation.

Worldwide Sales and Service

You will receive expert advice on choosing the right solution and service package together with the guaranteed availability of spare parts and future support.

Quality
Quality strap, delivered carefully wound, well bound and in cartons

Polypropylene PP

High tensile strap
Polyester PET

There's a lot to be said for Strapex straps!

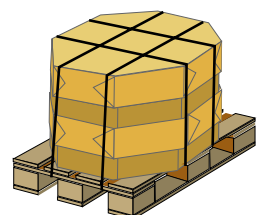

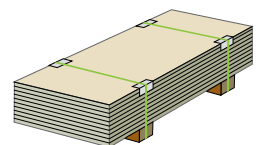

PP (Polypropylene)

- For light packaged goods up to 30 kg weight
- For **packages, loose bundles** and **newspapers and magazines**
- **Security** for valuable goods
- **Safe transport** of fragile products
- **For manual or mechanical strapping**
- **Resistant to temperature fluctuations** from -18°C to $+50^{\circ}\text{C}^*$
- **The economic solution** to general logistic and transport security

PET (Polyester)

- For the **secure transport** of palletised goods of all kinds
- **UV resistance** makes it suitable for storing goods in the open air
- **Resistant against**
 - **handling and transport-related stresses** such as vibration
 - **climatic influences** such as damp or temperature fluctuations from -30°C to $+80^{\circ}\text{C}^*$ (for goods that may shrink or stretch)
- **For manual or machine strapping**
- **The strong alternative to steel straps:**
 - **Cost-saving**
 - Less damage to the surface and edges of packaged goods
 - Less risk of injury when cutting the strap
 - Easier handling of strap rolls
